

Your program provides you with access to the **ECS/CMS CareerPartner 24x7 Online Career Portal**, a powerful Internet-based tool that complements your program and counseling. The OCP is the most results-oriented and versatile personal transition program in use today. By partnering interactively, you and your consultant are able to keep in touch 24/7 and together build a strategy for an effective job search. You can work at your own pace, control your own schedule and maintain the critical momentum needed for a job search.

OneSource Global Business Browser

OneSource is an online database of more than 17 million potential employers throughout the United States and Canada. OneSource features an extensive database offering in depth profiles, corporate financials, executive biographies, news, and analyst reports on companies not only in your target area, but around the world.

Career Links

The Portal provides Internet hyperlinks to information that has proven useful to others in our programs. You'll find career sites, fields of interest, publications, professional organizations, regional resources, and more.

Resumes

The Resume section explores the key elements of a winning resume. Learn about the different types, including chronological, functional, and combination resumes. Use the ResumeBuilder link to view hundreds of resume examples targeted toward specific industries and job functions.

LinkedIn

Your professional network of trusted contacts gives you an advantage in your career, and is one of your most valuable assets. Stay informed about your contacts and industry. Find the people and knowledge you need to achieve your goals.

Simply Hired

Find 4+ million job listings from job boards, newspaper classifieds and company Web sites for job seekers in one convenient location. Simply Hired also has a "Who Do You Know?" tool which enables job seekers to see who they know at companies of interest within their LinkedIn profile.

Online Training Webinars

Take advantage of pre-recorded Career Transition Webinars from your computer. Topics include: Assessing Your Next Career Move, Resumes, Written Communications & Reference Strategy, Research, Selling Yourself as the Product, Networking & Informational Interviewing, LinkedIn Training, Interview Strategy & Preparation, and Tough Interview Questions & Negotiating.
